12. (Unclassified - GLC) Mr. Morell, ORR, called to say that Jim Colbert, an economist in the Office of Soviet Union Affairs, Department of State, had been in touch with him concerning State's using ORR's paper on "The USSR/FIAT Agreement" with several congressmen including Representative Ashley. (This came up once before in July 1966 when we were in touch with State's Congressional Relations Office on possible use of this paper on the Hill.) I told Mr. Morell that I would be in touch with Mr. Colbert and the State Congressional Relations Office to be sure that this was handled in accordance with the arrangements previously made.

Later in the day, I talked with Mr. Colbert and suggested that he check with Ambassador MacArthur's office in connection with the use of the Fiat paper on the Hill adding that it had been previously agreed that this paper could be used by the Department with attribution to the Agency.
